

Keeping your employees healthy with 24/7 access to a GP

Patients are finding it increasingly difficult to see their local GP. An average UK wait time for an appointment is now 13 days and, in some areas, up to 17 days.

Many people, including your employees, are unable to see a doctor without taking time off to receive treatment at a convenient time and location.

70-80% of all short-term absences are due to minor illnesses with over 90% being in the top five most common causes of absence.

The inconvenience of extended waiting times affects us all. We at 1Stop4aGP are here to offer a affordable and market leading solution.
