

**Keeping you and your family  
healthy with 24/7 access  
to a GP**

Patients are finding it increasingly difficult to see their local GP. An average UK wait time for an appointment is now 13 days and, in some areas, up to 17 days.

70-80% of all short-term absences are due to minor illnesses with over 90% being in the top five most common causes of absence.

Many people are unable to see a doctor without taking time off to receive treatment at a convenient time and location.

Whether still working or retired, the inconvenience of extended waiting times affects us all. We at 1Stop4aGP are here to offer a affordable and market leading solution.

**Our remote GP Service is here for you, anytime, anywhere.**

## So, how does it work?

Simply call our 24/7 helpline, where you'll speak to an experienced member of the customer service team who will book either a telephone or video consultation with a GP at a convenient time to you.

One of our doctors will call you or your family member back at the appointed time and your consultation will begin.

With no time limit on consultations, you can speak to a clinician for as long as necessary about any concerns or symptoms you may have.
